

Personnel Administration

Reduce paperwork and ease administrative tasks for office, field, and lab staff with software that turns data into actionable insights.

The Solution

Plan project assignments and manage resources easily in one trusted system.

Our personnel administration software helps you optimize your most valuable asset – your people – by simplifying scheduling, improving visibility, and ensuring efficient resource allocation.

Functionality

Manage technician availability

Coordinate technician availability with tools that let your team request and track time off in alignment with scheduled dispatches.

Swift expense reporting

Quickly create, approve, or reject mileage, project, and corporate expenses with optimized reporting tools.

Performance metrics

Track and evaluate staff performance with a customizable KPI dashboard that gives you real-time visibility into key metrics.

Benefits

Time off made easy

- Technicians request time off and see updates instantly in the dispatching system, reducing manual coordination.

Expense capture

- Record project and field expenses directly in the system technicians already use with no extra paperwork required.

Performance insights

- Monitor performance with a customizable KPI dashboard that tracks workloads, timelines, and throughput.

Clear scheduling

- Avoid confusion by making staff availability visible and easy to manage.
